

Kharchuk Nazar

Full stack developer

Executive Summary

I am a results-driven Full Stack Developer specializing in WordPress/PHP and React/Next technologies. With a proven track record, I excel in creating seamless, user-centric web experiences. Proficient in both front-end and back-end development, I have successfully developed and maintained custom WordPress themes, ensuring optimal website performance. My expertise extends to crafting dynamic and responsive user interfaces using React and Next.js, resulting in improved engagement. Collaborative by nature, I work effectively with cross-functional teams to deliver projects on time and within scope. Holding a Bachelor's degree in Computer Science, I am a WordPress Developer and have a solid foundation in React.js fundamentals.
